

3M™ SelfCheck™ System (V-Series Tabletop Unit)

[CHECKOUT]

Self-service with the reliability of Tattle-Tape™ Security

The 3M™ SelfCheck™ System V-Series is a fast, versatile checkout solution that is so intuitive it virtually assures first-time success. Along with an easy-to-use touch screen and step-by-step instructions, the distinctive V design helps customers place items correctly at checkout. The system processes books, magazines, videos, CDs and DVDs and provides web-based remote monitoring and diagnostics. It also accommodates a wide range of barcode placements, so you rarely have to re-barcode items. The V-coil design automatically adapts to power level variations and essentially eliminates false alarms. Additional security features prevent customers from checking out more than one book under a single barcode and substituting items during checkout. With its dynamic design and sharp, contemporary look, the V-Series takes your library to the next level of productivity and service.

Intuitive User Interface

- Easy-to-use touch screen interface
- Scanner handles almost any barcode location and orientation
- Distinctive V design makes the proper placement of items more intuitive
- Easy-load fast receipt printer uses standard size rolls of printer paper, making it easier to change

Contemporary Design

- Counter comes in a variety of laminate and Corian® tops
- Cabinet comes in a wide variety of finishes to fit the look of any library
- Portable unit allows for variety of placement options

Reliable Checkout

- Less than 1 in 10,000 false alarms
- Fast checkout of many items
- Ensures items are checked out correctly
- E-mail and paper receipt

UL-Certified
