

Print Conversion System

Fast, flexible conversion to RFID

Empower your library with one of the fastest print conversion systems in the market. Save time and money with the flexibility to print both the barcode and library logo on an RFID tag right in the library. Experience the ability to weed your library's collection with a pre-programmed weed list that will help your library speed up conversion time. And, with an intuitive interface and user friendly setup, your staff will quickly learn how to convert tags and begin realizing the benefits of RFID immediately.

Easy to Use / Cost Effective

- Allows staff to easily learn to convert collection
- Intuitive interface ensures happier staff
- Easy to load RFID tags into printer
- High and regular volume printing options
- Customer supplied PC

Multiple Features

- Able to weed and convert your collection simultaneously
- System can program and reprogram tags
- Flexibility to print barcode on RFID tag
- Custom print library logo on RFID tag right in the library

3M Tag Data Manager

- Freedom to move to ISO Tag Data Standard in the future
- Empowers the 3M™RFID System to read country specific data formats (Danish, Dutch, Finnish and French)

High Volume Print Conversion System

Regular Volume Print Conversion System
