

3M™ RFID Detection Systems

(Models 8900/9900)

Enhanced security coverage with style and versatility

The 3M RFID Detection System Models 8900 and 9900 combine flexibility and style with state-of-the-art technology to help provide excellent detection and reliability. The Model 8900 is available in a variety of finishes to match your library's decor. The Model 9900 is equipped as an attractive clear corridor system. Both models meet ADA requirements and have a variety of flexible mounting options- direct mount or base plate to better meet your needs.

Excellent Detection Performance

- Utilizes the latest RFID technology to provide enhanced detection performance
- Available in one, two, three or four corridor systems

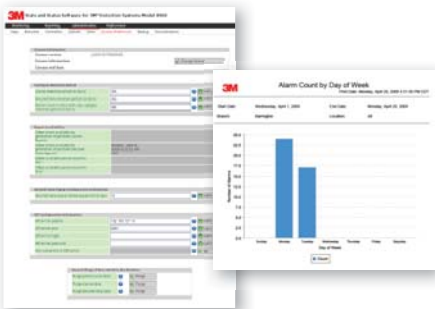

Features

- Adjustable audio and visual alarms
- Integrated patron counter to monitor your traffic patterns
- Directional patron counter

Available Options

3M™ Stats and Status Software for 3M™ RFID Detection Systems

Operate your library more efficiently with powerful new monitoring and reporting tools from 3M. Gain real-time access to statistics and aggregated customized reports including patron counting, ability to identify items that left the library that were not checked out properly*, and alarm counting to help optimize the use of your staff time.

*Consult your 3M Sales Consultant regarding system specifications.
